Steps:

Submit this form to Andrei Golovko (agolovko@tigm.org, fax: 979-458-5559).

Andrei will help arrange for either performing the cryopreservation at the investigator's room or importing mice into the TIGM quarantine.

Provide the core with 6-8 practiced stud males, 3-6 months of age, and (optional) 12-15 females of the desired genetic background, 3-5 weeks of age.
